Description

Olive trees cultivation, organic olive oil DOP production, touristic incoming: CAVASECCA FARM extends for 50 hectares, 20 of which planted with olive trees, and it is located in Canicattini Bagni, in the Southeastern coast of Sicily. In this place tucked in history and art we produce the CAVASECCA organic extra virgin olive oil DOP MONTI IBLEI. Cultivations are of native plants: secular trees of ZAITUNA (Siracusana) , Tonda Iblea, Biancolilla, Nocellara dell'Etna. Organic cultivation features the environmental purity and the soil fertility. 10 km far from Cavasecca Farm we restored an ancient villa in Siracusa in front of Greek theatre, that has become a luxury accommodation the whole year long.
