Description

CRESPIRISO is a Rice Farm and also Rice Factory, handed down from father to son since 1821. CRESPIRISO is located in a zone, the area of Novara, where rice has a deep tradition: it is considered the heart of Italian rice. From six generations we produce rice, grown in traditional way and followed daily during growth. The rice processing is done with traditional techniques with a stone bleaching and finishing at room temperature to ensure a white rice always fresh and fragrant. The concept of elegance and ITALIAN STYLE is realized in the cultivation and processing of traditional rice; services we provide to the customer and that we pack with maximum passion and quality. Our rice is devoid of agents and it is entirely 100% Italian made.
